

The 3 R's

Down:

2. when unwanted goods are transformed into something else
6. to use something instead of something else

Across:

1. dangerous
3. material used to wrap and protect goods
4. food and goods that are produced naturally without adding chemicals
5. when food waste rots naturally
7. when you use unwanted food matter and household waste to use in the garden
8. what you do when you sort out your rubbish into glass plastic etc.
